Game Objectives

The primary goal in short mat bowling is to deliver bowls that come to rest closest to the jack (the target ball). Players aim to outscore their opponents by positioning their bowls strategically on the mat.

Basic Rules and Play Format

- Setup:

- A rectangular mat, typically 6 to 8 meters long and 1.5 meters wide.
- A target jack placed at a designated end.
- Players or teams alternate delivering bowls from a predetermined hand or side.

- Playing the Game:

- Players take turns rolling their bowls, aiming to get as close as possible to the jack.
- The game usually comprises a set number of ends (rounds), commonly 8 to 12.
- After all bowls are played in an end, points are awarded based on the proximity of bowls to the jack.

- Scoring:

- Only the bowls of the player or team with the closest bowl score points in that end.
- Each bowl closer than the opponent's best bowl counts as one point.
- The player or team with the highest score after all ends wins.

- Fouls and Penalties:

- Stepping over the mat boundary during delivery.
- Moving the jack unintentionally.
- Violating delivery rules, such as improper stance or delivery technique.

Note: The second edition provides detailed diagrams illustrating proper delivery stance and common fouls to help players avoid infractions.

oracle fnd documents short text is a commonly searched term by Oracle E-Business Suite (EBS) users and administrators seeking concise information about FND (Foundation) documents within the Oracle environment. Understanding how to efficiently access, interpret, and manage these short texts is crucial for maintaining seamless application functionality, troubleshooting issues, and ensuring effective communication across modules. This article provides an in-depth exploration of Oracle FND documents short text, covering its purpose, structure, usage, and best practices for managing these essential components.

Understanding Oracle FND Documents Short Text

What Are FND Documents?

In Oracle E-Business Suite, FND (Foundation) documents are standardized pieces of data used across various modules to support configuration, messaging, and processing. These documents often contain essential information such as error messages, labels, descriptions, and short texts that facilitate user interaction and system operations.

The Role of Short Texts in FND Documents

The short text within FND documents serves as a concise, easily understandable snippet of information that summarizes or labels a particular message or data element. This short text is typically used in user interfaces, notifications, and logs to quickly convey the essence of the message without overwhelming users with lengthy descriptions.

Key purposes of FND document short texts include:

- Providing quick, readable labels for form fields or options.
- Summarizing error or informational messages.
- Facilitating localization by enabling easy translation of concise texts.

- Enhancing user experience by reducing clutter and improving clarity.

Structure and Components of FND Documents Short Texts

Basic Structure of FND Documents

FND documents are stored within Oracle EBS's database tables, primarily in the `FND\_DOCUMENTS` and `FND\_DOCUMENTS\_TL` tables. These tables contain core information and translations, respectively.

Key tables involved:

- `FND\_DOCUMENTS`: Stores document identifiers, types, and core attributes.
- `FND\_DOCUMENTS\_TL`: Stores translated or localized text for different languages.

Components of Short Texts

A typical FND document short text consists of:

- Document Name/ID: Unique identifier for the document.
- Language Code: Specifies the language for the short text.
- Short Text Content: The concise message or label.
- Description: Additional details, often optional.
- Effective Dates: Validity period of the short text.

Example:

Column Name	Description
-------------	-------------

-----	-----
-------	-------

DOCUMENT_NAME	Unique identifier like 'ERR_INV001'
---------------	-------------------------------------

LANGUAGE_CODE	'US' for English (United States)
---------------	----------------------------------

SHORT_TEXT	'Invalid input'
------------	-----------------

DESCRIPTION	'Error message for invalid user input'
-------------	--

| START_DATE | Date from which the text is valid |

| END_DATE | Date until the text is valid |

Usage of FND Document Short Texts in Oracle EBS

Application in User Interface

Short texts are used extensively in forms, menus, and notifications to:

- Display labels for fields.
- Show error messages or warnings.
- Present status updates or informational messages.

Example: When a user enters invalid data, the system may display a short text like "Input error" to communicate the issue promptly.

Application in Messaging and Logging

Short texts facilitate quick identification of messages in system logs, aiding in troubleshooting and auditing.

Localization and Multilingual Support

Because short texts are stored with language codes, they support localization efforts, enabling the interface and messages to adapt to users' language preferences.
